

The Defeat NCD Partnership

Type:	Course
Location:	Web-based
Duration:	1 Hours
Programme Area:	Other
Website:	https://whoacademy.org/coursewares/course-v1:WHOAcademy-Hosted+H0025AM+H0025AM_...
Price:	\$0.00
Event Focal Point Email:	globalhealth@unitar.org

BACKGROUND

Non-communicable diseases (NCDs) are the leading cause of death and disability worldwide. In 2019, NCDs accounted for 71% of all deaths globally, with 10 million people dying from NCDs each day. This is a significant public health challenge that requires a multi-sectoral approach to address. The United Nations has recognized the importance of NCDs and has established the High Level Panel of Experts (HLPE) to provide guidance on NCD prevention and control. The HLPE has identified several key areas for action, including strengthening health systems, promoting healthy lifestyles, and addressing the social determinants of health. The Defeat NCD Partnership is a global coalition of governments, civil society, and the private sector working to accelerate progress on NCD prevention and control. The partnership aims to achieve the Sustainable Development Goals (SDGs) related to NCDs, including SDG 3.6 (halving global road deaths by 2020) and SDG 3.9 (halving global road deaths by 2020). The partnership is currently working on several initiatives, including developing a global NCD action plan, strengthening health systems, and promoting healthy lifestyles. The partnership is also working to address the social determinants of health, such as poverty, inequality, and lack of access to healthcare. The Defeat NCD Partnership is a testament to the power of global cooperation in addressing the NCD challenge.

EVENT OBJECTIVES

- 了解 疾病 的 传播 途径 和 预防 措施
- 掌握 诊断 和 治疗 的 基本原则
- 能够 识别 和 报告 疑似 病例
- 了解 疾病 的 社会 和 经济 影响
- 能够 制定 和 实施 控制 策略

CONTENT AND STRUCTURE

本课程 旨在 帮助 学员 了解 疾病 的 传播 途径 和 预防 措施 (lymphatic filariasis) 和 (onchocerciasis) 的 诊断 和 治疗 的 基本原则 以及 如何 识别 和 报告 疑似 病例 并 制定 和 实施 控制 策略 课程 将 包括 疾病 的 社会 和 经济 影响 以及 如何 制定 和 实施 控制 策略

METHODOLOGY

课程 采用 混合 学习 模式 : 1 小时

课程 将 包括

课程 将 包括 英文 和 中文 [English](#) | [Chinese](#)

课程 将 包括 疾病 的 传播 途径 和 预防 措施 WHO 疾病 分类 和 诊断 和 治疗 的 基本原则 以及 如何 识别 和 报告 疑似 病例 并 制定 和 实施 控制 策略
